

BCPS Magnet Programs Elementary School Programs

International Studies

Students develop 21st century skills in a rigorous, inquiry-based program that engages them in their own learning and helps them make sense of the world around them through first-hand experience. Students are engaged through six transdisciplinary themes, spread across the content areas of language arts, mathematics, science, social studies, arts and personal, social and physical education. The themes at each level are: *who we are, where we are in place and time, how we express ourselves, how the world works, how we organize ourselves, and sharing the planet.* Students work to understand their place in the world and engage in action projects based on needs in our local and global communities. Students will become more aware of diverse cultures and will develop global awareness and international mindedness.

*-available at Wellwood
International School (WIS)
and Woodmoor
Elementary School (WES).*
