

## BCPS Magnet Programs Middle School Programs

### Environmental and Earth/Space Science

**Earth/Space Science:** Students participate in instructional activities related to geology, erosive forces, seismic activity, volcanology, oceanography, astronomy, meteorology, and geologic time.

**Environmental Science:** Students take Environmental Science in Grades 6 and 7 and Earth/Space Science in Grade 8. (See *description above*.) In Environmental Science, students study the biotic and abiotic components of the environment.

*Students take Environmental Science in Grades 6 and 7 and Earth/Space Science in Grade 8. Students in this program have the opportunity to take high school science exams and earn up to two high school elective credits by passing the courses. These credits do not count towards graduation credits for science.*
