

BCPS Magnet Programs High School Programs

Health Sciences*‡

This program provides students with rigorous college and career preparatory coursework through the lens of Health Sciences. Through project-based inquiry, students engage in authentic, hands-on lab experiences to explore current topics in healthcare, biotechnology, and research investigation. Following successful completion of advanced Biology and Anatomy classes, students specialize in one of three pathways: Dentistry, Physical Rehabilitation, or Biomedical Sciences. At the end of their program of study, students may earn industry certification as well as participate in internships, college coursework, and relevant work experiences in the exciting field of Health Sciences.

**Articulated college credit may be earned from the Community College of Baltimore County.*

‡Students may earn a minimum of four MSDE Career & Technology Education (CTE) credits for graduation.

-available at Overlea High School (OHS)
