

## BPCS Magnet Programs High School Programs

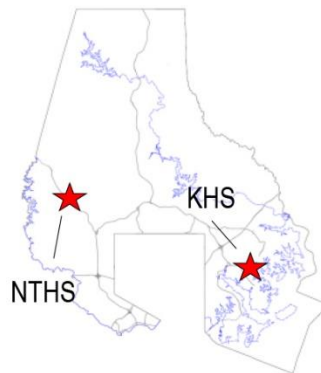

### International Baccalaureate (IB)

This program provides a rigorous, academic program that gives students a global perspective to prepare them for college. Students in Grades 9 and 10 participate in interdisciplinary instruction across all content areas based on the International Baccalaureate (IB) framework.

At Kenwood, students in Grades 11 and 12 transition into the internationally recognized IB Diploma Programme (DP).

At New Town, students in Grades 11 and 12 select either the IB Diploma Programme or the Career-related Programme (CP), in which they can specialize in Project Lead the Way Biomedical Science, Nutrition and Foods Science, Cisco Networking and Cyber Security, or Interactive Media Production pathways.

Based on individual interest, students at both schools will select and explore a variety of courses in depth and breadth to develop individualized research and community-based action projects. Students completing the requirements may receive college credit for IB coursework.

*-available at Kenwood High School (KHS) and  
New Town High School (NTHS)*
