Sports Science Academy

This program invites students to a world of leadership and career-search opportunities. It is open to individuals who wish to pursue an interdisciplinary core curriculum and investigate careers in sports, health, and fitness fields such as sports medicine. In this program students will gain reasoning skills and techniques through various classes such as paramedical biology, team sports, sports psychology, health, anatomy, and physiology. The knowledge gained will then be applied during service projects, activity days, field trips, and guest speakers talks and panels. Magnet concentrations include: Sports Education, Sports Business, Sports Communication, and Sports Management. Student internships are available.

-available at Kenwood High School (KHS) and Western School of Technology and Environmental Science (WSTES)
